

## Simplified Immunization Schedule: 7 years – 18 years

### Points to Consider:

1. An annual influenza (flu) vaccine is also recommended each year
2. The HPV series is given at 0, 2 and 6 months after the child turns 11 years old.
3. Prima Pediatrics follows the immunization guidelines of the American Academy of Pediatrics (AAP). You can learn more about vaccines and your child's health at: <http://www2.aap.org/immunization>. Detailed information sheets can be found at the [Centers for Disease Control](#) website.

### KEY:

TDaP: Tetanus, Diphtheria and Pertussis  
 HPV: Human Papillomavirus  
 Meningococcal: Meningococcal Meningitis
